

# Ibrahim Hesham Hemdan

Full-Stack & 3D Web Developer — Mobile Developer — Open Source Contributor

Buhayrah, Egypt | [contact@ibrahim-hemdan.com](mailto:contact@ibrahim-hemdan.com) | [ibrahim-hemdan.com](http://ibrahim-hemdan.com) | [github.com/HEMA-HEMDAN](https://github.com/HEMA-HEMDAN)

## PROFESSIONAL SUMMARY

Computer Science student (2nd Year) and Full-Stack Developer with a specialized focus on 3D web technologies. I combine strong technical foundations in the MERN stack with creative design skills to build interactive, innovative web and mobile applications. Committed to open-source development, I authored the **3D-renderer** package to simplify web-based 3D modeling. I am experienced in DevOps workflows, CI/CD pipelines, and system architecture.

## TECHNICAL SKILLS

- **Frontend:** React.js, Tailwind CSS, GSAP (Animations), HTML5, CSS3, JavaScript (ES6+), UI/UX Design, Figma.
- **Backend:** Node.js, Express.js, MongoDB, MySQL, REST APIs, Authentication (JWT), System Design.
- **3D Development:** Three.js, React Three Fiber (R3F), Drei, Leva, 3D Model Integration.
- **Mobile:** React Native (Cross-platform).
- **DevOps & Tools:** Git/GitHub, GitHub Actions (CI/CD), Docker, Cloud Basics.
- **General:** Java, OOP, Data Structures & Algorithms.

## SELECTED PROJECTS

### 3D-renderer (Open Source Library)

*Tech: Three.js, R3F, Leva*

- Developed and published an NPM library allowing developers to render 3D models on the web with a single line of code.
- Focused on abstraction and usability to lower the barrier of entry for 3D web integration.

### Dr. Ahmed Gad (Professional Platform)

*Tech: React, Tailwind, Node.js*

- Designed and developed a professional website featuring a highly responsive UI/UX.
- Optimized component structure for fast load times and seamless navigation ([dr-ahmed-gad.com](http://dr-ahmed-gad.com)).

### Overdosemath.com (Educational Platform)

*Tech: React, Tailwind, Node.js*

- Built an interactive educational platform featuring dynamic tools for mathematics.
- Focused on frontend performance optimization to handle complex interactive elements.

### Masr.pages.dev

*Tech: React, GSAP, Tailwind*

- Created a modern web project showcasing advanced frontend animations and motion design.

### Elmanasah.app

*Tech: React, Node.js, MongoDB*

- Developed a mobile-friendly web application with robust backend integration and efficient data fetching.

## EXPERIENCE

### Independent Developer & Open-Source Contributor

*2023 – Present*

- **Full-Stack Development:** Architected and deployed multiple full-stack web and mobile applications.
- **DevOps Implementation:** Integrated CI/CD pipelines using GitHub Actions to automate testing and deployment.
- **Open Source:** Actively contributing to the developer community by creating tools that enhance productivity.

## EDUCATION

### Bachelor of Science in Computer Science

*Expected Grad: 2028*

Damanhour University (Nobariyah Campus)

*2nd Year Student*
